

## Package - Id 27

Created by: WeeeSys 17-01-2019, Date of background lists: 17-01-2019

Package name	Gas discharge lamps (tubes) from dismantlers	Calc. model	WEEE Dir. 2012/19/EU, WFD 2008/98/EC
May be used by	Treatment partner A	WEEE-system	DEMO system
Output fraction	16 02 15* / 07 - mix of gas discharge lamps		
Internal name and code of output fraction		Remarks	

## All fractions, acceptors/technologies and composition-data

Gas discharge lamps treatment partner A (nat. market)		spec.treatm. of gas discharge lamps		I	100,0000 %
* 19 12 03 / 03-2	aluminium fraction 'pure'				10,0000 %
Al smelter 1 (DE)	Al smelter			F	100,0000 %
Al	Al > Al recovery	R	R		100,0000 %
* 19 12 05 / 03	tube glass from gas discharge lamps 'pure' - cleaned				70,0000 %
glass smelter1 (IT)	glass production			F	100,0000 %
glass				MR	100,0000 %
* 19 12 11* / 03-9	tube glass from gas discharge lamps - uncleaned				10,0000 %
underground landfill x (DE)	special landfill			F	100,0000 %
glass	glass > no use - 'cold technologies'	LD	LD		90,0000 %
inorganic residues	inorganic residues > no use - 'cold technologies'	LD	LD		10,0000 %
* 19 12 11* / 04-2	fluorescent coating material - gas discharge lamps - with mercury				1,0000 %
underground landfill x (DE)	special landfill			F	100,0000 %
mixed fractions - disposal	no use - 'cold technologies'	LD	LD		100,0000 %
* 19 12 12 / 01	residues from separation - no hazardous substances and plastics below ROHS/REACH values				9,0000 %
landfill X (nat. market)	landfill			F	100,0000 %
mixed fractions - disposal	no use - 'cold technologies'	LD	LD		100,0000 %
