Introduction

WF-RepTool day

Jan Vlak
Wecycle

History

- WEEE-Directive enforces recycling rates
- 2002: countries sit together: recycling results are not comparable
- Also: calculation needs 2m^2 excel sheets!
- 2004: Technical working group of systems
- 2006: Installation Software tool Recupel
- 2007: Ready for use

WF-Reptool organization

- Software needed for WEEE-Directive, Cenelec norms, WEEELABEX Standards
- WF-RepTool now is available for all
- Informative http://wf-reptool.org launched
- 2011: expert group co-funded development
- 2013: software needs to fund itself
- WF-RepTool Lite & WF-RepTool Pro (€ at wf-reptool.org) and next slide

Program

User & software	Yearly WF-RepTool fee	One-off WF-RepTool fee	Remarks
WF member: Lite WF member: Pro	€ 500 € 1.000	- € 1.500	Lite is included in WF fee
Small WEEE operator: Lite Small WEEE operator: Pro	€ 500 € 1.000	€ 500 -	Option: hosting € 100/year
Big WEEE operator: Lite Big WEEE operator: Pro	€ 1.000 € 1.500	€ 2.000 -	Option: hosting € 250/year
Other users: Lite Other users: Pro	€ 1.000 € 1.500	€ 2.000 -	Option: hosting € 250/year

Program

Divided in four parts

1. Introduction
2. Experiences systems
3. Experiences recyclers
4. Development

Agenda WF-RepTool day

Date:	Thursday, October 10		Mercure Hotel Amsterdam Airport
Place:	Amsterdam airport		Oude Haagseweg 20
Subject:	Program WF-RepTool day		1066 BW Amsterdam
			Netherlands

INTRODUCTION

10.30 – 11.00   Reception with coffee

11.00 – 11.10   Introduction
Jan Vlak (Wecycle) looks back at the history of WF-RepTool, explains the current WF-RepTool organization, and introduces the day.

11.10 – 11.30   Back to the basics
Renate Gabriel (WF-RepTool developer) explains how WF-Reptool works, what is the background and structure of WF-RepTool, and highlights the options of WF-RepTool reports and options of use.

COLLECTIVE SYSTEMS
several systems give a short insight in special ways they use WF-RepTool

11.30 – 11.50   The Belgian way: being the first
Els Verberckmoes (Recupel) looks back at the history of reporting since start 2001, the development and testing Reptool, the use of WF-RepTool since 2005, and explains the benefits.

11.50 – 12.00   The Swedish way: intensive training
Fredrik Benson (El-Kretsen) explains how in five years the education of treatment partners has evolved from startup on-site meetings to online meetings with shared desktops.

12.00 – 12.10   The Italian way: guided batching
Enrico Zangirolami (Ecodom) intensively guides treatment partners of cooling- and freezing appliances by assisting the first batch, making the first report and then handing it over.

12.10 – 12.20   The French way: doing the reporting yourself
Soline van Wymeersch (Eco-Systèmes) explains the problems French recyclers had with reporting, and the problems Eco-Systèmes encounters now that they do the reporting themselves.
